

Student Policy

We will provide this policy on request at no cost, in large print, in Braille, on tape or in another non-written format.

The Organisation is keen to provide placements for students in social care and related areas as we recognise the benefits this brings to existing practises of the Organisation and to social care generally.

Working with a student is one way in which we can make a real and valuable contribution to the development of the skilled workforce. It is an important role to undertake that is not just about helping a student with their learning; it is also about contributing to decisions about who can enter the workforce.

The importance of this role is reflected in the Code of Practice for Social Service Workers (SSSC 2019), which clearly says that everyone has a duty to contribute to the learning of others.

Supporting practice learning helps workers with their own professional development and can provide teams with an opportunity to develop and improve services. Workings with students can also contribute to the development of a learning culture; students have new ideas and bring a fresh perspective to the work. In addition, providing a placement can raise awareness of the work of your organisation, and even contribute to effective recruitment in the future.

To ensure that the Organisation and the students maximise the potential of the placement, the following guidelines will be adhered to.

PLACEMENT

Prior to agreeing to a placement, the service/section manager should discuss the impact of the placement with his/her line manager. This discussion will take into consideration how settled the service/section currently is, the likely impact of the placement on the service user group and the resources required to ensure a successful placement. Potential placements must be agreed by Care Services Manager / Section Head.

MEETING WITH STUDENT AND TUTOR / PRACTICE TEACHER

Having agreed the placement in principle, an initial pre-placement meeting will be arranged with the student and his/her tutor and/or practice teacher and the service/section manager.

This meeting will cover areas such as: -

- Length of Placement
- Professional Boundaries
- Objectives
- Learning Outcomes
- Ongoing Supports Required
- Number of Liaison Meetings
- Sickness Procedures
- Insurance Requirements

- References
- Enhanced Disclosure Check (current)
- Placement Supervisor
- Culture of Wheatley Care
- Confidentiality
- Resolution of Complaints/Disciplinary Issues

SUPERVISOR RESPONSIBILITIES

The student's supervisor will not necessarily be the service manager / section head and where this is the case, the supervisor must ensure that the service manager / section head is kept regularly updated on the progress of the placement and is invited to ongoing liaison meetings as appropriate.

The responsibilities of the supervisor are to: -

- Discuss the placement with service users and get their signed consent to student involvement in their care.
- Review service user consent on a 4 weekly basis.
- Discuss the placement with the current staff group and outline the roles, responsibilities and expectations of the student and each individual staff member.
- Check references including a copy of valid Disclosure Certificate from the College / University or placing body.
- Check public liability insurance cover.
- Adapt current induction procedures to the specific placement.
- Arrange and attend on-going liaison meetings.
- Provide placement guidance and formal supervision.
- Ensure placement objectives are agreed, prioritised, evaluated and met.
- Resolve any practice issues and complaints/grievances timeously.
- Ensure line management are kept fully informed of the progress of the placement, supplying reports to line management.
- Ensure ongoing evaluation of the placement to ensure it continues to meet with the service / section and the student's needs.
- Ensure that the student receives the Organisation's proforma student contract and any policies / procedures relevant to the placement.

PLACEMENT EVALUATION

At the conclusion of the placement the supervisor will collate an overall report on the progress of the placement including: -

- The effect on service users and staff
- Student progress
- Whether learning objectives and outcomes were met
- Benefits of the placement to Wheatley Care
- Benefits of the placement to the Student
- Learning outcomes for the supervisor and Organisation
- Areas that should be highlighted in future references for the student
- Recommendations for future placements

This evaluation report should be completed within 4 weeks of conclusion of the placement, discussed with the external line manager for the service section with a copy of the report sent to the student, tutor/practice teacher and a copy forwarded to the Learning and Development Manager.
